

Healthcare Facilities

The Sheridan Corporation provides development, design, and construction solutions to the northern New England healthcare community. We are experienced in work related to complex areas of hospitals and other healthcare facilities, including hospital additions and renovations; ambulatory surgery centers; medical office buildings; community clinics and any other construction projects that require understanding of the healthcare environment.

In collaboration with architects or using our design/build approach, Sheridan will guide your construction project from concept through completion. Our experienced project teams know your medical equipment, your space requirements and the prevailing codes. With value-based design and construction methods, we strive to provide top quality medical space and, in many cases, can deliver lower square footage costs than is traditionally expected.

The Sheridan Corporation

33 Sheridan Road, Fairfield, Maine 04937 - or - 739 Warren Ave., Portland, Maine 04103
207-453-9311 - or - 207-774-6138

We provide our clients:

- Intelligent planning, design and construction by an experienced team
- Thorough site design and permitting
- On-site construction management
- Lower cost through value-based oversight
- Schedule sensitivity and a track record for meeting completion dates
- Complete "turnkey" projects with client satisfaction being the primary goal

Dialysis Clinic, Skowhegan, Maine

"Providing services in underserved areas is important to our company. Sheridan helped to make this facility possible through high-quality value engineering processes."

Keith Gothard
Corporate Administrator
Dialysis Clinic, Inc.
Nashville, Tennessee

Since Sheridan's beginning over sixty years ago in northern Maine, our core values of quality, hard work and honesty have remained a constant as the company grows. These values are recognized by our clients who appreciate down-to-earth, common sense solutions that fit their budget and building needs. Our clients call on us again and again and we at Sheridan recognize that they form the cornerstone of our reputation. Whether you plan to build a small community clinic, professional office building or an addition to a hospital, Sheridan can provide you with building solutions for the future.
