To Provide Total Customer Satisfaction

Since 1952 Butler Brothers has delivered exceptional value and highest quality products to their customers. John Butler, Sr. started Butler Brothers, with one basic vision – *to provide personalized service and quality products at a fair price.*

Wanting to meet customers' expectations with ease and flexibility, Butler Brothers selected **Sheridan Construction Corporation**

to build a 54,000 square foot warehouse facility with a showroom that displays many of the industrial and packaging machines that Butler Brothers offer.
