Dear Brad;

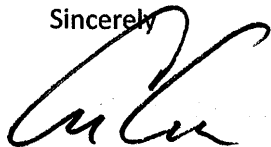

I am writing in reference to the projects Sheridan has completed on the campus of Fryeburg Academy – our Wadsworth Field House and Eastman Performing Arts Center. Both have quickly become landmarks on campus and pillars of the regional community.

As President of the Board of Trustees at Fryeburg Academy and someone who has been involved in major building projects throughout the world for many years, I appreciate a high-quality builder when I see one, and Sheridan has demonstrated itself to be just that. In addition to fulfilling the obligations of the plans, specification, and contract, your team was a partner with the Academy all the way along, working through the many issues associated with complicated projects in a cooperative, problem solving culture.

Building on an active campus during the school year can be a challenge. Your team seemed to enjoy the challenge, and built a positive, safe, low impact environment around both projects.

Thank you for the good work.

Sincerely,

Chris Gordon
President, Fryeburg Academy Board of Trustees
