

Sheridan
Construction

Amtrak/NNEPRA Layover Facility

Brunswick, Maine

Client Name

Amtrak

Delivery Method

General Contractor

Designer

Charette Design/Butler Manufacturing

Project Size

60,000 sf

Sheridan and Butler Manufacturing have teamed up with the Design team lead by Consigli Construction in order to bring together this 60,000-square-foot layover facility.

This 655' foot long structure will house three full-length trains that run from Brunswick, Maine to Boston, Massachusetts.

Sheridan was responsible for the design, and erection of the Butler metal building. This new building features a Insulated Concrete form (ICF) as well as a Butler MR-24 standing seam roof.

Building on our promise.
