Orono, Maine

**Client Name**

The Bangor Area Development Corporation

**Delivery Method**

Design-Build

**Designer**

Sheridan Construction

**Project Size**

20,000 sf

The Bangor Target Area Development Corporation has partnered with Sheridan Construction to design and build an information and technology incubator facility, located at the Maine Technology park, in Orono.

This new 20,000-square-foot facility will house companies using state-of-the-art computer and telecommunications equipment.

Sheridan is responsible for self performing the Engineering, foundational work, MRST frame, installation of the MR-24 roofing system, as well as the application of siding.

**Building on our promise.**
