Construction

Dialysis clinic

Skowhegan, Maine

Client Name

DCI Dialysis Clinic

Delivery Method

General Contractor

Designer

Jack Freeman & Associates

Project Size

11,800 sf

In Skowhegan Maine, a new 11,800-square-foot comprehensive patient care facility. This medical office is intended to provide care for patients with end-stage renal disease.

The DCI clinic features office space, and state of the art medical rooms designed to provide treatment for patents. Sheridan was able to deliver this state of the art dialysis clinic to our client ahead of schedule and under budget.

Building on our promise.
