Harvey Dow Gibson Recreation Center

Fryeburg, Maine

Client Name

Fryeburg Academy

Delivery Method

General Contractor

Designer

Harriman Associates

Size

45,000 sf

Sheridan Constructed the Harvey Dow Gibson Recreation Center. This new 45,000-square-foot facility features a three-court field house, indoor track, lockers and offices, in addition to a wrestling room, and a well-equipped student community exercise and fitness center.

The construction of this project took approximately 10 months to complete, and will be taking the place of the former 50-year-old Gibson gym which had been lost to a fire.

Building on our promise.
