

**Sheridan
Construction**

Hadlock Field

Portland, Maine

Client Name

Portland Sea Dogs

Delivery Method

Design-Build

Designer

Dant-Clayton Corporation / Sheridan Construction

Project Size

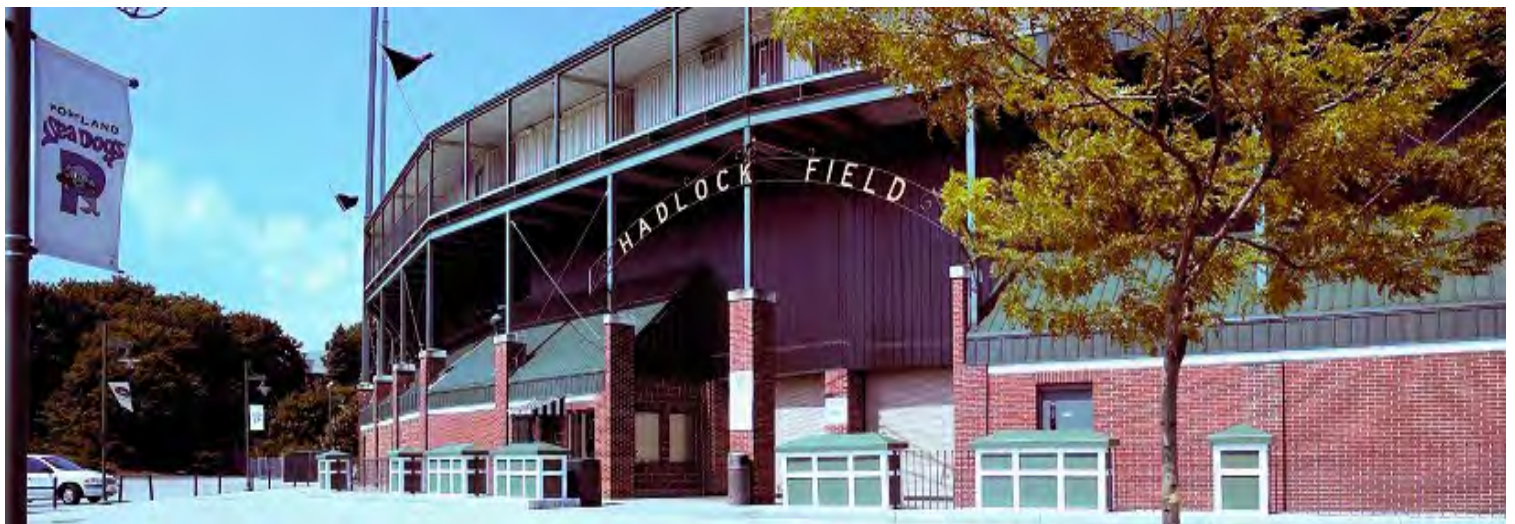

48,000 sf

In 1992, Maine was awarded an Eastern League expansion franchise, which means former high school stadium, Hadlock Field needed renovations.

Sheridan was responsible for the Design-Build for the foundations skyboxes, and Grandstand which includes roofing and walls. Sheridan self-performed the engineering, fabrication and erection of the grandstand.

This project will leave a lasting impression on Maine for years to come, as the Sea Dogs are Maine's first professional team.

Building on our promise.
