Owls Head Transportation Museum

Owls Head, Maine

Client Name

Owls Head Museum

Delivery Method

Design-Build

Designer

Sheridan Construction

Project Size

21,000 sf

For their 25th anniversary, Owls Head Transportation opened a 21,000-square-foot edition.

This space is dedicated to exhibition, education and visitor services. This expansion has been added to the north wing of the museum, and houses ground vehicles and acts as a function space, seating up to 400 visitors. Additional in the new wing is collection storage, rest rooms and a renovated front entry.

Building on our promise.
